# Wire Forming Technology

International

## Feature Articles

New-concept CNC bending machine...20

Fast, easy coiling direction changes...22

Stainless steel wire ...24

Constant force spring machine ...36

### 12 WFTI Technical Achievement Award – Class of 2006

First Annual Wire Forming Technology International Technical Achievement Award, given out annually to a spring making or wire forming industry individual(s) for major technical developments related to equipment, materials or accessories for making springs or wire formed parts.

### 20 Bending Equipment Maker Establishes Presence in Europe

Constantine Grapsas - Optimized solutions through innovative equipment and cutting-edge technology now offered on two continents.

### 22 Faster & Lower-Cost Spring Machines

Donald H. Fisher - Simple operation, higher versatility and increased output, all without sacrificing precision and reliability.

### 24 Materials (Wire, Rod & Bar) Roundup

Editorial Staff - Suppliers have responded to our call for the state-of-the-art in raw materials for manufacturing springs, wire forms, wire mesh and rebar products.

### 35 The Strength of Steel

Dr. Roger N. Wright - Cold Drawn Stock – Part 2: The second installment of a new multi-part series dedicated to the metallurgy of spring making and wire formed parts manufacturing.

### 36 Versatile Constant Force Spring Manufacture

Nelson Ferguson - This technology for efficient spring manufacturing was highlighted at the recent *SPRING WORLD® 2006* show.

### 38 What is Old is New

John Mitteer - Spring industry veterans bring their knowledge and expertise to a newly formed spring machinery company.

### 40 Advantages of Using Induction Heat Technology in Treating Wire Products

Martin Wagstaff - A look at induction wire heating principles including production of induction tempered spring wire, high-bond reinforcing wire and single and multi-wire induction heating.

### 46 Spotlight On Decoilers/Payoffs

Michael McNulty - Getting the wire, rod or strip out of its package (reel, coil, drum, bundle, basket, etc.) and into the wire forming machine or spring coiler is an important task.

### 55 Company Profiles

Information of value to the international spring and wire formed parts industry.

## Industry Events

### 14 *SPRING WORLD® 2006* – A Success

CASMI - Review of *SPRING WORLD® 2006*, which enjoyed an increase in registration and attendance over the 2004 event; held October 18-20, 2006, in Rosemont, IL, USA.

### 49 Successful Show in Shanghai

Messe Düsseldorf - Review of *wire China 2006*, which in its second staging experienced increased exhibitors and visitors; held September 25-28, 2006 in Shanghai, China.
