12 Improved Performance By Using the Latest Technologies

Tim Weber - Automatic bending machine supplier celebrates 30 years of dedication to the wire forming industry and teams up with a new partner in North America (see this month's **Cover**).

36 The Elements of Selecting the Right Turntable Payoff

Tim Malarky - Factors such as *Coil Load*, *Wire Dimension*, *Loading Method* and *Material Demand Rate* are the keys in getting the best performance and quickest return on investment.

40 Automatic Lattice Grinder Lines

Guido Ricci - Automatic production of electrowelded steel structures starting from cold rolled drawn wire and/or hot rolled rod—standard as well as custom girder manufacturing simplified.

44 Industry Tour of Japan and China

Jerry Reese - Industry veteran, and former Executive Director of CASMI, organizes an Asian spring industry tour, limited to 40 people.

45 Straightening & Cutting Roundup

Editorial Staff - Suppliers have responded to our call for the state-of-the-art in straightening and cutting equipment.

50 Spotlight On Materials (Wire, Rod & Strip)

Michael McNulty - To be effective, your raw materials must have the capability to stand up to the rigors of multiple manufacturing processes and the end-use application.

52 Partnership Expands Spring Coiler and Grinder Product Line

Michael Shapiro - New distribution arrangements lead to the availability of more innovative machines for manufacturers of springs and wire forms.

53 Hardening via Martensite

Dr. Roger N. Wright - Part 4 of the multi-part series, *The Strength of Steel*, dedicated to the metallurgy of spring making and wire formed parts manufacturing.
